EXPERIENCE

Bering Straits Native Corporation Department of Transportation/FAA,
Washington, DC

Armed Guard/Supervisor (March 2014 – Present)

- Led a team of 40+ security personnel to achieve organizational safety goals through effective teamwork and collaboration.
- Enhanced premises security by monitoring access points and coordinating maintenance of security equipment.
- Conducted area surveillance and organized security drills, improving emergency response capabilities.

United States Army Department of Defense, United States Army, Glen Burnie, MD

Non-Commissioned Officer (August 2009 – January 2017)

- Developed and executed training programs, enhancing the skills and safety procedures of 200+ soldiers.
- Provided technical support and conducted performance evaluations to improve training effectiveness and efficiency.

EDUCATION

University of Maryland Global Campus, Adelphi, MD

BS in Computer Science (Oct 2020 – Dec 2023)

GPA: 3.54

PROJECTS

Cloud Resume Static Website

Technologies: AWS Route 53, Lambda, CloudFront, S3, VSCode, GitHub Actions, Terraform

Developed a static resume website hosted on AWS. Utilized AWS services for DNS management, serverless functions, content delivery network (CDN), and cloud storage. Implemented CI/CD pipelines with GitHub Actions and

SKILLS

Cloud Technologies: AWS
(Route 53, Lambda, CloudFront, S3), Terraform, GitHub Actions

Programming Languages:
Java, C#, Python, JavaScript, HTML5, CSS

Linux: Operating Systems, Command Line, System Administration, Shell Scripting, Security Basics

Other: Agile Methodologies, CI/CD Pipelines, SQL

Certifications

- **.Net Full Stack Foundation,** March 2024
Proficient in .NET frameworks, C#, SQL Server, HTML, CSS, JavaScript.
- **Introduction to DevOps (IBM),** March 2024
Skills in CI/CD, GitHub Actions.
- **Tools of the Trade: Linux and SQL (Google),** April 2024
Skills in Linux systems, SQL, command-line tools.
- **Foundations of**

managed infrastructure as code using Terraform.

GitHub: [Cloud Resume Static Website](#)

Linux Directory Management

Technologies: Ubuntu, Command Line, Vim

Managed and organized files, secured permissions, and located hidden files using the command line in Ubuntu. Documented the process through screenshots and scripts, using Vim for file creation.

GitHub: [Linux Directory Management](#)

BlackJack Simulator

Technologies: Java, Agile, Kanban, CSS, SQLite

I contributed as part of a team to create a BlackJack simulator by programming parts of the game using Java. Followed Agile principles and utilized Kanban for task management.

GitHub: [BlackJack Simulator Capstone Project](#)

Cybersecurity (Google),

January 2024

Fundamental

understanding of

cybersecurity principles and practices.

- **Connect and Protect:**
Networks and Network Security (Google),
February 2024
Knowledge of network security protocols and best practices for protecting networked systems.
